

ReproducibiliTea journal club:

Fostering open science and reproducible research

Maria Korochkina

Department of Psychology, Royal Holloway, University of London

School of Psychological Sciences, Macquarie University

Festival of Research

Royal Holloway, University of London

10 June 2024

What is ReproducibiliTea?

<https://reproducibilitea.org/>

What is ReproducibiliTea?

<https://reproducibilitea.org/>

A grassroots journal club initiative that helps researchers create local Open Science journal clubs at their universities to discuss diverse issues, papers, and ideas about improving science, reproducibility, and the Open Science movement.

. . . or tutorials

- *Creating effective visuals with Affinity and Illustrator*
- *Getting started with L^AT_EX*
- *Getting started with Version Control*

Why should I consider doing it?

Why should I consider doing it?

- A low commitment, fun, & flexible way to spread open science ideas in your department

Why should I consider doing it?

- A low commitment, fun, & flexible way to spread open science ideas in your department
- Learning with & from your colleagues

Why should I consider doing it?

- A low commitment, fun, & flexible way to spread open science ideas in your department
- Learning with & from your colleagues
- Finally reading the papers you've always wanted to read but could never find the time!

Why should I consider doing it?

- A low commitment, fun, & flexible way to spread open science ideas in your department
- Learning with & from your colleagues
- Finally reading the papers you've always wanted to read but could never find the time!
- Practice chairing discussions & improve your communication skills

Thank you!
